

Cyberpower Solutions Annual Outlook 2020

Cyberpower Solutions in 2020 is going to continue to engage in the development, acquisition, management, marketing, and disposition of space & cyberspace companies nationally and internationally. Regarding Coronavirus, our hearts and prayers go out to everyone who is impacted by the horrific situation, including children at home scared for the health and well being of their parents and loved ones together with the sick, dying and victims of the global pandemic. Small businesses and individuals will feel the pain of the situation, and we pray that we can all come out of this as a closer world community. If your cyber security, telecommunications, or space satellite company has or hasn't been affected look no further than Cyberpower Solutions which has a very strong, experienced board of advisors & directors. Our team has a solid track record of building and re-building companies. We understand and know what it takes to re-structure/manage growth, in good times and bad. Additionally, the principals of Cyberpower Solutions bring a high level of management and transactional abilities, as well as over 150 years of business experience and acumen. All of Cyberpower Solutions acquisitions are leveraged with new funding and designed to give maximum value to the owners and the principals involved in each transaction.
